

Centers for Disease Control
and Prevention (CDC)
Atlanta GA 30333

October 5, 2020

Jason Leopold
BuzzFeed News

Dear Mr. Leopold:

This letter is regarding to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of April 2, 2020, assigned #20-01129-FOIA, for “all letters, emails, complaints, threatening correspondence submitted in writing against agency officials by members of the public who have referred to the coronavirus and COVID-19 as a hoax, a deep state invention made up by Democrats to hurt President Donald Trump or have challenged the veracity that coronavirus is a pandemic. This correspondence could have been mailed to CDC and HHS or submitted through contact pages on the agencies' websites or mailed or emailed to the director of each agency.” The date range for record search was from 3/13/2020 to 4/2/2020.

We located 12 pages of responsive records (8 pages released in full and 4 released in part). After a careful review of these pages, some information was withheld from release pursuant to 5 U.S.C. §552 Exemption (b)(6).

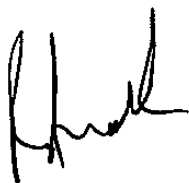

EXEMPTION 6

Exemption 6 protects information in personnel and medical files and similar files when disclosure would constitute a clearly unwarranted invasion of personal privacy. The information that has been withheld under Exemption 6 consists of personal information, such as names and email address. We have determined that the individual(s) to whom this information pertains has a substantial privacy interest in withholding it.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to FOIARequest@psc.hhs.gov. Please mark both your appeal letter and envelope “FOIA Appeal.” Your appeal must be postmarked or electronically transmitted by December 22, 2020.

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Andoh', with a stylized, cursive script.

Roger Andoh
CDC/ATSDR FOIA Officer
Office of the Chief Operating Officer

Subject: REMEDY AS A PROPHYLAXIS : NIGELLA SATIVA , "BLACK SEED OIL3 AVILABLE IN THE USA, EUROPE, THE MIDDLE EAST. EXTENSIVE RESEARCH DONE

THE HONORABLE DR FRANCIS COLLINS, MD, PhD
 DIRECTOR
 NIH
 USA

DEAR MADAM , DEAR SIR

FOLLOWING ALL SCIENTIFIC PROOF OF THIS BLESSED OIL AND THE ACTIVE COMPOUNDS IT CONTAINS , HUMANITY CAN NOT WAIT AND THIS IS NOT A HOAX OR AMATEURISM BUT SCIENCE , ALSO MENTIONED IN THE HOLY BIBLE :
 NEW YORK THAT I LOVE IS LIVING A TRAGEDY, SAME FOR CALIFORNIA AS I AM A LONGBOARD SURFER...
 USA SHOULD ACT . THE PRODUCT IS AVAILABLE IN BIO SHOP IN EUROPE, MIDDLE EAST, UK, USA , ASIA.
 THIS IS NCCIH CALL ! IT IS A WAR AGAINST AN INVISIBLE ENEMY THAT CAN BE STOPPED WITH GOD'S GRACE
 4 Bible Verses about Cummin

Most Relevant Verses

Isaiah 28:25

Verse Concepts

Does he not level its surface And sow dill and scatter cummin And plant wheat in rows, Barley in its place and rye within its area?

Isaiah 28:27

Verse Concepts

For dill is not threshed with a threshing sledge, Nor is the cartwheel driven over cummin; But dill is beaten out with a rod, and cummin with a club.

Matthew 23:23

Verse Concepts

"Woe to you, scribes and Pharisees, hypocrites! For you tithe mint and dill and cummin, and have neglected the weightier provisions of the law: justice and mercy and faithfulness; but these are the things you should have done without neglecting the others.

Isaiah 28:26

Verse Concepts

For his God instructs and teaches him properly.

ALSO IN OUR PROPHETIC TARDITION :

The Prophet (peace be upon him) said:

"Treat yourself using the seed of black seed, it is a remedy against all ills except death".

I hereby salute the efforts of **Dr Jennifer A. DOUDNA of the University of Berkeley** who discovered, with her **French colleague Emmanuelle Charpentier**, the **CRISPR-Cas9 technique**, a real "**molecular chisel**" in genomic engineering.

We wish you every success!

In Europe, a **clinical trial** is underway:

It is planned to include **3200 European patients** including Belgium, the Netherlands, Luxembourg, the United Kingdom, Germany and Spain, and may be other countries including at least 800 in France hospitalized

for an infection with COVID-19 SARS-CoV-2 virus in a medical service or directly in intensive care.

I equally salute the courage of the honorable **Professor, Dr Didier Raoult, MD, Specialist in Infectious Diseases** in Marseille.

Convinced of the efficacy of chloroquine against Covid-19, the **Pr Raoult** decided to launch a large-scale campaign of massive screening and prescription of **Chloroquine** for patients infected with the coronavirus.

I whole heartedly the very best of luck and success to European **DISCOVERY trial** has begun with five treatment methods:

1. standard care
2. standard care plus **Remdesivir**
3. standard care plus **Lopinavir and Ritonavir**,
4. standard care plus **Lopinavir, Ritonavir and Beta Interferon**
5. standard care plus **Hydroxy-Chloroquine**.

I equally salute Japan for **Favipiravir** (anti-viral RNA polymerase) showed positive outcomes in clinical trials involving **340 patients** in Wuhan and Shenzhen, according to **Mr Zhang Xinmin, from China's Science and Technology Ministry**, who quoted:

"It has a high degree of safety and is clearly effective in treatment"

Finally, I wish success to the honorable **Dr Andre KALIL, M.D., M.P.H., Professor, Department of Internal Medicine Director, Transplant Infectious Diseases at the University of Nebraska Medical Center**, for the **US NIH clinical trial** of **Remdesivir** against SARS-CoV-2 virus for the sake of Humanity and the people of the world.

Just try as a prophylaxis "Nigella Sativa Oil" on 50-100 volunteers or as clinical trial on infected patients worldwide.

I have named this product : "HBPM". It exhibits antiinflammatory and anticancer activities.

An extract of research:

1. **Suppressed tumor necrosis factor-induced NF-kappa B activation in a dose- and time-dependent manner and inhibited NF-kappaB activation induced by various carcinogens and inflammatory stimuli.**
2. The suppression of NF-kappaB activation correlated with **sequential inhibition of the activation of I kappa B alpha kinase, I kappa B alpha phosphorylation, I kappa B alpha degradation, p65 phosphorylation, p65 nuclear translocation, and the NF-kappa B-dependent reporter gene expression.**
3. **Induction of apoptosis, inhibition of cell proliferation and reduction of cell viability at following treatment with HBPM 100 µM.**
4. **Alcoholic extract and oil of HBPM** were investigated in a **human lung cancer cells model**. **Inhibitory effect of the essential oil of HBPM (5.8 mg/ml) on human neutrophil elastase (HNE) activity was shown suggesting the therapeutic effect of the plant on lung damages caused by some diseases including chronic obstructive pulmonary disease (COPD) and emphysema.**
5. Aspiration lung injury in a rat model was also improved after treatment with **HBPM** (400 mg/kg/day, administered by gavage for 7 days) by **inhibition of lung inflammatory responses, interstitial fibrosis, alveolar edema and necrosis formation**.
6. The antioxidant property of TQ led to **reduction of lipid hydroperoxide (LOOH) and total sulfhydryl group (-SH) causing a preventive effect on HBO₂-induced lung injury**.

7. Oxidative stress caused by Cyclophosphamide (CP), an anticancer drug, caused lung injury. In a study, HBPM (100mg/kg/day, administered orally for 14 days) was used to improve CP-induced pulmonary damage in a rat model. The antioxidant and anti-inflammatory properties of HBPM led to protective effect of this component in healthy lung cells

TREATMENT WITH HBPM: SYNOPSIS OF SUCCESS

The active agents of HBPM this product that I have named have beneficial effects against many diseases including **cancer**.

1. For example, it is effective in **reducing the risk of atherosclerosis** by lowering the LDL cholesterol level and increasing its HDL level. It exerts its therapeutic effects on diabetes by reducing morphological changes, while preserving the integrity of the beta cells of the pancreas.
2. It is effective against **hypertension**. Hence the potential and **competitive blocking of hACE receptors which are attacked by the spike proteins of the COVID-19 SARS COV-2 virus.**
3. It has a **powerful antihistamine effect** on the upper tract of **asthmatics**. And this I have tried many times personally.
4. Its components are promising agents to complement the specific treatment of **Schistosomiasis (bilharziasis), Praziquantel, Rifampicin.**
5. Its oil protects the tissues of the kidneys against oxygen free radicals, prevents dysfunctions and morphological abnormalities of the kidney.

6. Role of HBPM as **an anticancer agent**: a **pentacyclic triterpenoid saponin**, extracted from HBPM, had a powerful anti-tumor active ingredient in vivo. Blood Cancer: blocks the proliferation of HL-60 cells from **myeloblastic leukemia** in humans.

7. **Breast Cancer**: that the aqueous and alcoholic extracts of HBPM are effective in vitro by inactivating MCF-7 breast cancer cells. The HBPM derivatives to terpene-terminated 6-alkylated have been tested on **MCF breast carcinoma**. -7 / Topo: derivatives cause cell death by **apoptosis**.

8. **Colon Cancer**: HBPM is **antineoplastic and pro-apoptotic** against **colon cancer cells of the HCT116 line**. The volatile HBPM oil has the capacity to inhibit colon carcinogenesis in rats at the first stage, without effects. HBPM is therefore a chemotherapeutic agent on colon cancer cells SW-626, with an **efficacy similar to that of 5-fluorouracil**.

9. **Lung Cancer**: the anti-tumor action of a major component of HBPM against LL / 2 (Lewis Lung Carcinoma = Lewis **lung carcinoma**) in BDF1 mice.

10. **Fibrosarcoma**: in vitro studies have shown that HBPM prevents the survival of fibrosarcoma cells with a **half-maximum inhibitory concentration (IC50) of 15 mM**. HBPM oil also decreases the fibrinolytic potential of **human fibrosarcoma cells of the type (HT1080) in vitro**.

11. **Prostate Cancer**: HBPM **prevents DNA synthesis, proliferation and vitality of cancer epithelial cells** (LNCaP, C4-B, DU145 and PC-3) but not non-cancerous epithelial cells of the prostate by **regulating**

downward AR (androgen receptors) and E2F-1 (a transcription factor).

12. **Cervical Cancer:** the extracts of **Methanol, n-Hexane and chloroform contained in HBPM** effectively **killed HeLa cells (cancer of the epithelium of the human cervix)** causing **apoptosis**. Tests for the terpene-terminated 6-alkylated residue of HBPM on multi-resistant human carcinoma of the cervix KB-V1 / Vb1 and found derivatives that cause cell death by apoptosis.

The Action of the Molecular Mechanisms of HBPM Against Cancer:

Anti-cancer action, either protects the genetic material from modification, or it kills genetically modified cancer cells.

The active components of HBPM act on cancer cells, helping to kill them by taking several molecular paths.

The apoptotic mechanisms behind the **antiproliferative effect of HBPM on HL-60 myeloblastic leukemia cells**.

HBPM causes **apoptosis**, disrupts the membrane potential of the mitochondria and triggers the activation of caspases 8, 9 and 3 in HL-60 cells.

As an example in Germany.

The active components of this product are Thymoquinone (TQ), Dithymoquinone (DTQ), Thymohydroquinone (THQ) and Thymol as analyzed by HPLC (High Performance Liquid Chromatography), Alpha-Hederin ,...

It is active against super bacteria, namely **Pseudomonas Aeruginosa** and **Staphylococcus aureus**, in addition to **CMV** and **HSV-1**.

It has been tested elsewhere against **avian influenza virus subtype A(H5N1)** with positive results in the past as the majority of human cases of **influenza A (H5N1)** and **A(H7N9) virus infection** have been associated with direct or indirect contact with infected live or dead poultry.

*NIGELLA NATIVA

500MG Q8H PER OS FOR 10 DAYS
OR 2.5 ML Q8H FOR 10 DAYS
AVAILABLE WORLDWIDE

Thank you for your attention.

God Bless Your Efforts and Planet Earth.
